

Installation guide

#####

online installation guide

Installation of theme

step 1 -Go to your file manager .

step 2 - public_html -----> control -----> login

step 3 - Then unzip the file their (if you want to change the name you can rename it according to your needs)

step 4 -Then go to admin panel of the chat -----> system settings ----->display option
.....then select the login from login page style and then logout to see if it is installed successfully.

step 6 - Installation complete.

You can change the text by the login.php file which is located in the theme file once you click it you will get to know about it.
