Installation guide
###########################

online installation guide

Installation of theme

----

step 1 - Go to your file manager.

step 2 - public_html ------->css-------> themes

step 3 - Unzip the file. (You can change the name if you want to according to your needs)

step 4 - Refresh the site. (Go to your profile select then select the desired theme from theme settings)

step 5 - Installation complete.

 You can set that theme as default you just need to go to admin panel of your chat and then go to system settings their will be display option click to Default theme then select the one you wanted to make it default and save the settings
And Enjoy
